Summary

As a Cybersecurity Specialist, I excel in OSINT, security awareness, and Red Team Engagement. With proven expertise in optimizing EDR solutions and leading incident responses, I focus on enhancing security, fostering collaboration, and developing user-centric training. Committed to continuous improvement and global contributions, my goal is to be a thought leader, safeguarding organizations from cyber threats.

Education

Bayero University Kano

Bachelor of Science in Cybersecurity

Sep. 2018 – March 2024

Kano, Nigeria

Enterprise Development Centre (EDC) of the Pan-Atlantic University

Entrepreneurial and Managerial

April. 2022

Lagos, Nigeria

Federal University of Technology Minna

A level Degree (IJMB)

October. 2016 – February 2018

Niger, Nigeria

Technical Skills and Tools

OWASP Top 10 Reconnaissance Web/API hacking OSINT Leadership BurpSuite Nmap SQLMap Wazuh
Python/ Bash Metasploit GRC Content Creator Management EDR

Experience

Nigerian Communication Satellite Limited

Cybersecurity Analyst (Intern)

December 2022 – July 2023

Abuja, Nigeria

- Conducted vulnerability assessments and penetration testing to identify and remediate security vulnerabilities using various security tools.
- I monitored and analyzed security events and incidents to detect and respond to potential threats using SIEM tools.
- I participated in cybersecurity training and awareness programs to educate employees on best practices and promote a culture of security.

footright, LLC

Cybersecurity Specialist (Contract)

February 2022 – April 2024

Dallas, Texas, USA

- Work with Businesses and Organization to pinpoint the most critical security flaws
- I collaborate with a team to develop security awareness training programs for organizations
- Conducted simulated social engineering tests for organizations to identify employee vulnerabilities and providing remediation measures.

Hackerone

Security Researcher (Freelance)

November 2022 – Present

Dallas, Texas, USA

- I worked with businesses and organizations to identify and resolve security vulnerabilities and weaknesses affecting digital assets and computer networks.
- I have successfully reported over 15 security vulnerabilities for both private and public programs on HackerOne.

Professional Development

Routine:

- Organize local tech conferences, create content, participate in cybersecurity challenges (CTF), and conduct security research or training sessions, emphasizing hacking techniques from known vulnerabilities and exploits.

Certificates:

- Google Cybersecurity Professional Certificate (2024).
- Certified AppSec Practitioner (CAP) (2022).
- API Penetration Testing (2023).

Projects
